Go Knotless.

**Speed** of a running stitch.

**Security** of an interrupted stitch.

**Value** price of a traditional suture.
Create a **better wound healing environment with a watertight close.**

- **No knots to bury**, eliminating irritation caused by suture tags.
- **Intuitive, easy to use design** with no change to standard technique of running suture.

Unique high-density helical barbed structure with 42 barbs/in **facilitates healing** by grasping the tissue throughout the wound spreading tension evenly

**Atraumatic tissues passage**

- Retract for delivery
- Engage for fixation
As much as a **50% reduction in closure times** has been reported with using Quill™ suture.

### Uni-directional Barbed Suture

- **Single armed**
- **Adjustable loop for anchoring**

1. Pass first needle at apex. Then pass through variable loop.
2. Approximate tissue in a running fashion.
3. End with a backstitch or exiting lateral to end; cut off excess.

### Bi-directional Barbed Suture

- **Double armed**
- **Barbs reverse direction at midpoint**

1. Take 2 bites with each needle, centering transition point of suture.
2. Cinch wound together.
3. End with a backstitch or exiting lateral to end; cut off excess.

When choosing Quill barbed suture, upsize by one USP when converting from traditional suture and those of the competitors. For example, if previously using 3-0 USP traditional suture, choose 2-0 Quill suture.
Choose your material.
Offered in various materials and sizes fitted with premium needles.

**Short-Term Absorbable**
Monoderm™ (PGA-PCL)
Monofilament
Dyed (Violet)
Essentially complete in 90-120 days

**Long-Term Absorbable**
PDO (polydioxanone)
Monofilament
Dyed (Violet)
Essentially complete by 180 days

**Non-Absorbable**
Polypropylene
Monofilament
Dyed (Blue)
Permanent

Choose your style and length.

**Uni-directional Lengths**
- 60cm
- 30cm
- 20cm

**Bi-directional Lengths**
- 30x30cm
- 14x14cm
- 7x7cm

Choose your needle.
