

SURGICAL SPECIALTIES CORPORATION™

Plant Controller

Location: Jestetten, Germany

Surgical Specialties Corporation, is focused on developing and manufacturing new, innovative and reliable products for a variety of surgical procedures. Our products are distributed worldwide by sales and marketing professionals recognized throughout the industry for their clinical expertise and outstanding customer service.

Basic Summary:

We are seeking a Financial Controller based in our manufacturing site in Jestetten, Germany. The individual shall be responsible for performing highly specialized operational finance and accounting work, together with related management reporting and analysis for four legal entities within the German consolidated group. The German Group are comprised of subsidiaries of the US parent's UK-based entity and the position reports to the US Group Chief Financial Officer with regular interaction with the Company's Corporate finance team, the management reporting center for the Company.

The successful candidate shall be Responsible for the integrity of the financial reporting to the US parent company, with full responsibility for the Finance function within the German Group, including the accounting and controlling aspects of the manufacturing operations, compliance under German GAAP as well as US GAAP, development of the Finance function and improvement of management information as well as the processes needed to drive the business.

Requirements:

A minimum of a Bachelor's Degree with an emphasis in accounting. At least ten years of experience in the area of financial accounting and manufacturing plant controllership, financial statement preparation and analysis, budgeting, cash management, payroll, purchasing, accounts payable, and accounts receivable. Good knowledge of German Corporate taxation is an advantage. Experience working with an automated financial management system (SAGE experience a plus) and Microsoft A/X ERP system.

At Surgical Specialties (SSC) we value our employees and we expect them to share our Corporate Values
